

# TECHNICAL INFORMATION

## PAPER

- paper format, trimmed: 230 x 297 mm + 3 mm bleed around the file
- please mind the trimmed size of 224 x 297 mm of II and III cover as a result of 7 mm wide magazine spine gluing
- screen 175 lines/inch
- image resolution: 300 dpi
- number of proofs: 1 (cromalin or other digital proof)

## FILE FORMAT

- EPS-file with embedded images and typeface (not True Type) Save preferably as a ProScript with Preview.
- PDF composite file with embedded images and typefaces. Please use Weekends pdf-profiles for Distiller and Indesign for making press optimized pdf's version 1.3, with automatic jpeg compression high.
- 4-colour and 2-colour must always be saved in CMYK. Cyan, magenta, yellow and black. B/W adverts must be saved in grey scale or CMYK (grater). Total Ink Limit must by 320%
- please download profiles from ECI – ISO\_coated\_v2.icc ([www.eci.org](http://www.eci.org))
